Residential Summer Camps Ages 7-17

Philosophy: Welcome to CII Vacation Courses where we believe learning should be an adventure. Our main aim is to ensure the **welfare, safety and happiness** of young people in our care. From our many years experience of running courses we know that a carefully designed and structured **programme** will maximise a student's potential during their stay with us and provide the **young learner** with an **experience** they will never forget. We want students to mix with those from other countries and we manage an excellent **nationality mix**. We run our courses in the **best** schools available where a high standard of facilities, **food and cleanliness** can be guaranteed. To help ensure this we use the same staff as the school year round.

Student happiness is the secret to our success

How we succeed...

The Programme

The programme is genuinely full time providing students with the best possible learning environment. The programme is split into 3 parts, the lessons, the activities and the excursions. These are all interlinked with the welfare services we provide.

The programmes we offer are split into 3 age groups, depending on which location you go to. We have Tigers whom are under 10, Mainstream are aged 11-14 and the students who are 15 and over are called Seniors. Each programme is carefully planned to cater for the needs of the age group.

Lessons

Our overall aim is to help students improve their English. However, we also want to help students develop a love of learning languages. Specifically we will help students develop better learning strategies and encourage them to move towards becoming more independent learners with strategies for continuing to learn.

CCL students will be able to use English accurately and fluently. Our methodology combines traditional language teaching with the latest teaching techniques. Students learn relevant language which they can put into immediate use.

Activities

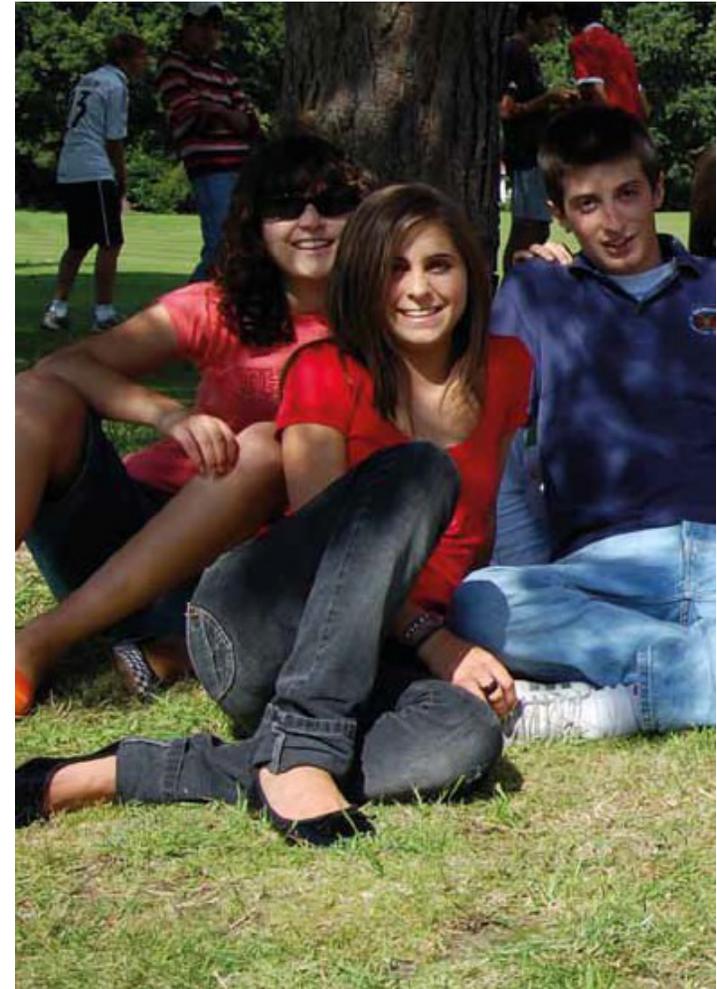

Our activity programme consists of students making choices in the afternoon and evening. We provide a fully inclusive and safe programme that caters for all needs. This means we have a great mix of sports, arts and crafts, music and drama and social events, all while the students are encouraged to speak English in mix nationality groups.

Excursions

- Two excursions each week
- Carefully planned and supervised visits to places of historical and cultural interest
- Specialist guides to ensure a professional visit

Success

- We plan things carefully with the different parts of the programme integrating
- We have good facilities which enable us to deliver the programmes we want
- We have the right staff to deliver the programme
- We choose to work with partners who can send us students from different countries ensuring a rich international mix.

Ensuring your happiness

Welfare

Our students' welfare is our highest priority. All students are supervised 24 hours a day.

Separate accommodation for boys and girls is provided. We have dormitories or larger rooms for the younger students while the older students have single, double or triple rooms. Three hot meals a day are provided except when the students are out on an excursion, and then packed lunches are provided.

There is always a choice of hot and cold food as well as a vegetarian option and a fresh salad bar. Students staying for three weeks will have their clothes laundered once during their stay. A Welfare Officer is available 24 hours and takes care of all students personal and medical needs. There is a safe deposit and banking service and all students have access to a safe for personal items.

Learn and grow as individuals

2013 Trip

Where we are...

Locations

We run our vacation courses in St Mary's which we have chosen carefully so we can offer the quality experience we want. It has been selected for their facilities, location and closeness to the airport, the friendly staff and the suitability for the age range that study there.

St Mary's

Ascot is a large village set in the beautiful countryside in the Royal County of Berkshire. It is situated 25 miles west of London. It is most famous for Ascot Racecourse and holds the prestigious Royal Ascot Meeting once a year. Windsor, Guildford and Reading are all close by.

Ascot St Mary's (Ages 7-17)

Overview

St Mary's School is a 15 minute walk from the centre of Ascot and the Racecourse. The original building dates back to 1885 and has had many additions since then including new state of the art theatre and sports complex.

Airports

LHR: h30

Facilities
